

As a leading resource for manufacturers, utilities and specialized service providers...

R.E. Lamb Group provides a state-of-the-art and turn-key approach to an impressive list of both regional and national clients.

Specializing in medium complex projects such as manufacturing plants, laboratories, control centers, distribution centers and offices, we can successfully bring your company's planning, design and construction projects in line with your business vision.

Our experience has shown that the greatest client benefits are achieved when our services are integrated into a comprehensive, customized program, which maximizes project continuity, minimizes time and controls costs.
