

AXALTA

Houston, TX

Lamb provided Planning, Detail Design and Turnkey Construction Services to deliver a new Training Center for Axalta Coating Systems. The single-story facility covers approximately 18,000 S.F. and is located in Houston, TX. The building includes two spray booth and prep-deck set ups, one powder coating area, three training rooms, four offices, a large cafeteria, support spaces and utility space.

Lamb has been an alliance vendor for Axalta Coating Systems since 2012. Lamb's approach to projects with Axalta is to leverage our experience and familiarity with Axalta's building standards, project structure, and implementation processes.
