

MILLSTONE GENERATING STATION

Waterford, CT

Lamb provided Dominion Energy with Planning, Detail Design, and Services through Construction for this new 16,000 S.F. Emergency Operations Facility.

The Facility includes a 3,500 S.F. Main Operations Floor with adjacent breakout rooms for key stakeholders including:

- Dose Assessment
- NRC
- City & Local Police
- Emergency Communications
- Field Monitoring Station

The Operations Floor is arrayed around a 4x3 narrow bezel video wall with space for additional screens to be added if desired.
