

# INDIAN POINT JIC

Buchanan, NY

**L**amb provided Planning, Detail Design, and Construction Services for renovations at IPEC's Joint Information Center (JIC), located at a critical NY State-owned facility. Lamb completed the renovations without any construction related downtime.

The work space for IPEC, NY State, and four local counties was upgraded with new furniture and video systems, incorporating ergonomic design, increased seating and common work space.

In the media briefing area, Lamb integrated eight narrow bezel 46" LCD panels into a custom visual back-drop. Up to 100 media members can be accommodated with flexible seating.
