

# TAMPA ELECTRIC COMPANY

Tampa, FL

**L**amb provided Facilities Planning, Design and Fit-Out Implementation for the 3,500 S.F. Grid Operations and 2,400 S.F. Systems Services Control Rooms for Tampa Electric Company.

The renovation included new sit/stand Evans Consoles and the replacement of existing mapboards with three separate video walls consisting of a total of forty 67" SXGA+ Mitsubishi Video Cubes.

Both rooms were completely renovated with dimmable indirect lighting, extensive sound soak panels on the walls and new finishes throughout the space.
